

RSB 108

A REVOLUTIONARY ROAD SERVICE BODY BUILT EXCLUSIVELY BY ZIP'S

Introducing the NEW RSB 108 design! With 4 more inches of headroom and a 24 inch longer body, the RSB 108 model allows for increased overall storage with ample space for larger capacity of oil storage and reclamation plus convenient location of a 4-in-1 Power Center. Over the last 2 years Zip's standard RSB (84" CA) has become the go-to in the service industry and with the addition of the RSB108 there's not a body on the market that rivals the custom, specialized capabilities of the Zip's RSB.

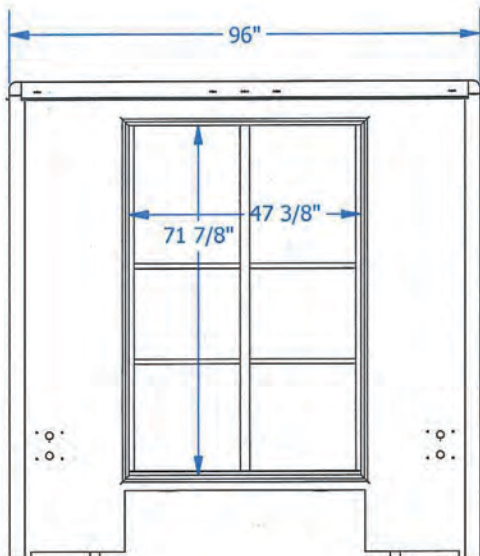

Allow us to learn more about your business and service truck needs. We would love the opportunity to help you develop a custom service body solution with the Zip's RSB.

Side View

Keep your tools and accessories secure, dry, and organized in one of the eight exterior toolboxes. The 108" body has allowed for additional storage space in these boxes as well.

* The body requires a clear 108" cab to axle, and is designed for 255/22.5" Tires. A 26,000# GVW is recommended.

Rear View

The RSB 108 now offers 6'4" of interior headroom, plus 2' more floor space. The additional 24" in length allows for larger tanks and power centers.
