

Warner Truck Bodies and Accessories has been manufacturing quality, custom utility bodies since 1939. We consistently lead the industry in delivering custom products with short lead-times and competitive prices. Custom bodies can be made of heavy duty galvanized steel or long-lasting, lightweight aluminum. Warner utilizes high quality components to provide customers with superior products. Whatever the job, our custom bodies offer you the ultimate in productivity and performance.

Custom Bodies

WARNER SPECIALIZES IN BUILDING CUSTOM UNITS
TO MEET CUSTOMERS' SPECIFIC REQUIREMENTS.

Maximum Customization

- Aluminum and steel construction deliver maximum benefits to individual users
- Proven engineering team and established distributor network work together to deliver customers their specific body designs
- Warner consistently leads the industry in short production delivery times
- Divider trays, adjustable shelves and J-hooks provide customized storage compartments to help each user achieve maximum efficiency

Superior Guaranteed Durability

- A60 galvalume steel or smooth aluminum increase corrosion resistance
- Durable double-panel doors ensure strength and durability
- Exclusive 5-year warranty guarantees construction and quality
- Better strength through full-length 5/16" stainless-steel hinge rods and stainless-steel hinge blocks

Added Weather Protection

- Clip-on automotive door rubber provides protection from elements for lifetime of unit
- Doors have built-in rain gutter for increased weather defense

Popular Options

- Water cask stand with drain
- Master locking system
- Taillights in rear compartments in lieu of bumper
