

Flexmark Series

Warner's Flexmark hauler is the ultimate combination of trailer towing and tool storage. The Flexmark's large front compartments, top-opening boxes and rear storage compartments combine to provide best-in-class storage capacity. The combination of a B&W turnover hitch in the loadspace with a rear receiver hitch allows this unit to have unlimited towing capabilities. For the paramount in storage and hauling. **Flexmark by Warner**

Flexmark Series

Warner specializes in building custom units to meet customers' specific requirements. Let us work with you to design your next work truck.

Features and Benefits

- B&W turnover combination hitch allows customers to switch from gooseneck towing, fifth wheel hauling or a flat floor in minutes
- Receiver tube at rear of body provides additional towing capabilities
- Rounded top adds to sleek look
- Compression T-style latches pull doors into rubber to keep weather out of compartments
- Two light kits add visibility, safety and superior look when not towing
- Gas shock door props hold doors in place
- Extra large front compartments, top-opening bins and rear boxes combine to provide maximum storage capacity
- Divider trays and adjustable flat shelves add storage compartment flexibility
- Easy door replacement/removal in minutes without need of tools
- Concealed hinges are protected from the elements and allow for less grinding of galvanized coating during production
- Added security provided through difficult to pry open flush-mounted, 16-gauge double-panel doors
- Polished fuel-fill enhances the look and eliminates paint chipping from fuel runoff
- Superior corrosion resistance with A60 Galvanized steel or aluminum construction
