

Warner toppers give customers increased security and organization while still being able to utilize standard pickup beds. Toppers are manufactured utilizing durable, galvanized steel and lightweight aluminum for products that will meet your specific needs. Warner produces straight-side and slope-side models to give you increased flexibility and maximum productivity.

Toppers

Toppers

Warner specializes in building custom units to meet customers' specific requirements. Let us work with you to design your next work truck.

Benefits

- Superior guaranteed durability
 - Exclusive 5-year warranty guarantees construction and quality
 - A60 galvanized steel or smooth aluminum increase corrosion resistance
 - Durable double-panel doors ensure strength and durability
 - Better strength through full-length 5/16" stainless steel hinge rods
- Maximum organized storage
 - Available in straight-side and sloped-side models for increased flexibility
 - Multiple sizes, latches and configurations help each user maximize productivity
 - Designed to fit multiple OEM chassis
 - Various rear-door styles provide maximum choices for individual needs
 - Body tapered to match most pickup bed makes and models
- Added weather protection
 - Clip-on automotive door rubber provides protection for lifetime of unit
 - Camper seal increases weather protection in cargo area
 - Doors have built-in rain gutter for increased weather defense
 - Double reinforced drip rail capped at both ends for added strength

Popular Options

- Ladder racks
- Dome light with switch at rear door
- Gull wing doors in lieu of flip-down
- Additional shelves and divider trays
- T- and D-style latches in lieu of paddle-style
- Single and double vertical doors in lieu of flip-up door
- Pull-out floor in load space
- Alternate sizes and heights
- Window in bulkhead
- Window in rear flap or doors
- Compartment lights
- Protective screens for windows
- Skylight in roof
