

XL HDG: MINI DECK

FEATURES

- 12-inch loaded deck height for tall loads
- Low-profile design offers clearance
- 5 ride height positions for deck height options
- 13HP power unit in the base of the gooseneck
- 11-foot long hydraulic neck for fast loading
- Full-width platform adds loading space
- 12 d-rings provide tie-down locations

RUGGED & VERSATILE MAIN DECK

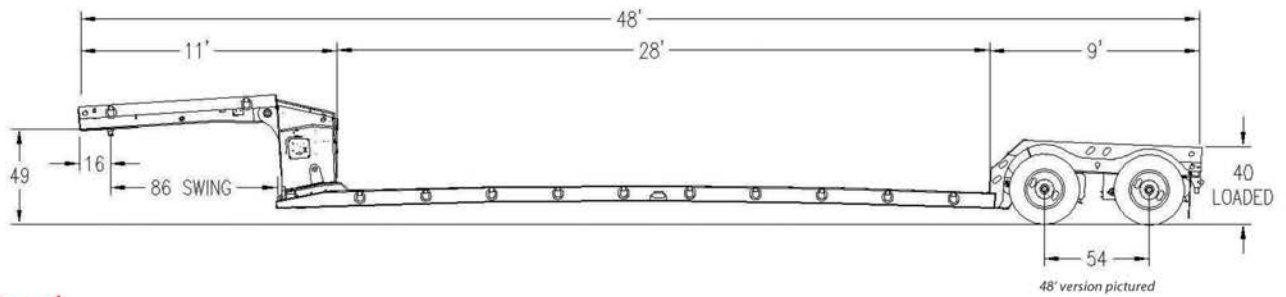

XL HDG Mini-decks feature a 12-inch loaded deck height with 4 inches of ground clearance. XL Mini-decks are available in capacities from 60,000 pounds to 80,000 pounds. They come in both 48-foot long and 53-foot long - with either 28 feet or 33 feet in the well, respectively.

UNIQUE THREE BEAM DESIGN

XL's superior three beam design uses 4-inch junior I-beams on 18"-inch centers, resulting in a lighter yet exceptionally strong trailer. With empty base weights as low as 19,650 pounds, drivers can easily scale out to maximum payload. This design uses steel flooring in the center deck and Apitong in the outer bays.
