

Zacklift Accessories

The Deluxe Accessory Package combines the most commonly requested optional forks and equipment into one package. Includes everything seen here. All accessories also sold separately.

Heavy Duty Wheel Lift

The industry's only wheel lift that tows dump trucks to mid-size SUVs. No bars to change or ratchets to connect. Straps remain connected at all times. Wheel lifting assembly can remain in place during storage for simple reuse. Wheel trays provide secure support for tires from 15" to 24.5", with 16 adjustable positions. Lift rating to 13,000 lbs.

Trailer/5th Wheel Hitch

Multi-function accessory complete with 2-5/16" trailer ball on 20,000 lb. pintle. Grab flat bed trailers, empty semi-trailers and goose-neck 5th wheel travel trailers. No tools necessary.

5" Height Extenders

Gain an extra 5" of height with any fork. Reach up to tough locations.

Spring Forks

Pin over the top of spring shackle for alternate hookup location. Load point is fully pivoting and non binding.

Steertek

For use on air suspensions, hollow beam front axles and Hendrickson Airtek/Steertek composite axles.

Scoop-n-Go

Fork and fork receiver all in one. Only 6" high, this fork slides easily under chrome bumpers and costly valances.

Chain Attachment Blocks

Blocks slide into end of Zacklift grid crossbar for a safe, efficient chaining location.
