# RTU

**Economical Solution**  
*Economical to buy, Economical to operate.*  
*"My Zacklift paid for itself in 6 months."*  
**Jim Jordan, Jordan Automotive**

**Choose the RTU that's right for your business:**

**Z453 45,000 lb lift 147" 100,000 lb tow**

**Z353 35,000 lb lift 131" 85,000 lb tow**

**Z222 22,000 lb lift 98" 75,000 lb tow**

**Zacklift Gull Wing Tool Boxes**

**0 OVERHANG** Unmatched ability to scale.  
*"I run through the scales and never have to worry."*  
**Trick My Truck's, Bryan Martin**

**All hoses, wiring and air, factory pre-engineered and internally routed through RTU beam**

*US manufactured electronic over hydraulic valve, PTO ready, remote control included, optional 12 volt power system*

**110,000 cast steel rotating tongue**

**3 way fork receiver for multiple positions and heights.**

**Second set of included receivers. 12" reach extenders to clear oil pans**

**Large capacity chain pocket and safety chains included**

**7 pin plug for tow lights and vehicle in tow**

**Plumbed for glad hands and air tools**

**LED stop, signal and tail-lights complete with wires housed inside beam**

**6 sets of standard equipment frame and axle forks**

**Fits ALL American & European truck frames**

**Adjustable kingpin. Hook up & drop just like a semi-hauler in under 10 minutes**

**Leveler stands for backing under, just like a semi-trailer**

**"Million Mile Roller Bearing" in critical pivot hub for extended life**

**Exceptional low profile for more single picks under low bumpers**

**34 long-wear load bearing nylon pads throughout, recess milled for years of smooth operation**

**1 1/8" T1 100,000 lb yield, fabricated by dedicated Zacklift welders**

**All mounting hardware stays with the RTU when removed with no additional steps. Hydraulic pneumatic and electrical quick disconnects**

**Move the RTU between multiple trucks**
