The Decision to buy is an easy one . . .

Skookum blocks are competitively priced against other domestic blocks of the same load capacity at a fraction of the weight. High quality bronze bushings and latched swivel hooks come standard. ASME B30.26 compliant.

Made by Skookum

Founded in 1890, Skookum is a leading manufacturer in the forging industry. Their commitment to quality & innovation makes Skookum a perfect fit into the B/A lineup of products!

Versatility is key! Skookum blocks can be used with wire & synthetic winch lines interchangeably without issue. Additional sizes are currently being tested & will be released in 2017.

At just 44 lbs. the Skookum block is 16 or more lbs. less than standard blocks. According to OSHA recommendations, two people should be utilized when lifting over 50 lbs. How costly is that back injury?

They are Versatile and more sizes are on the way.

Why is the lighter weight such a big deal?
