

NEW FROM B/A!

SYNTHETIC SUPER SLINGS

Do you have aluminum rims with small holes that you worry may get damaged by using chain? How about that tight spot that your round sling won't quite fit into? For tricky situations like these the Synthetic Super Sling is here to save the day!

Synthetic Super Slings are super strong, versatile and are offered in 4 sizes to suit your individual needs. Available in Eye and Eye style or Endless Loop style. Each sling features a full length floating (not sewn) protective sleeve that not only provides protection against damage and wear, but also allows for safety inspections of the rope underneath.

Size	Type	Vertical	Basket	Choker
