RR-FS

Complete your storage,
head to toe with these
other great items

- **Car Covers**
- **Car Capsules**
- **Battery Tenders**

FlatStoppers were developed as a solution for people having problems with tires developing flat spots when a vehicle is parked for 30 days or longer. Once tires are set on FlatStoppers (on a level surface), they settle into the ramps concave depression, which helps support more of the tire. This disperses the weight of the car more evenly onto the tire, helping to prevent any flat spotting.
