NEW
PRODUCT!

RR-CC-10-COMBO

MSRP
\$399.00

SPECIFICATIONS/BENEFITS

- Lighter - lightweight construction is easy to carry and maneuver
- Safer - won't slip, slide, or scoot on any surface and never scratches or marks your floors
- Stronger - 100% solid core construction
- Dimensions: 77" L x 12" W x 10" H with a 10.6° angle of approach
- Supports 1,500lbs per tire or up to a 6,000lb vehicle
- Weight: 15lbs each
- Fits tires up to 12" wide
- Remove the bottom portion of the ramp for easy side access
- Can be used in conjunction with Zoom Jack, GoJaks, or any other similar product
- Lift height is perfect for tinkering, maintenance, and displaying at car shows
- Other sizes available

Crib Cruisers provide a safe, lightweight alternative to jack stands. Crib Cruisers can be used in conjunction with Zoom Jacks, GoJaks, and other car dollies to reposition a vehicle while keeping it cradled above the ground. By supporting the tire 10" off the ground, Crib Cruisers provide unobstructed access underneath the car. They can also be used for car display. A set of four Crib Cruisers will support 6,000 pounds. Their patented super lightweight 100% solid construction provides a flat and wide footprint - so they can be safely used on hard or soft surfaces like grass, sand, or pavement - without sinking.

Crib Cruiser

Shown with Zoom Jacks

Integrated Buckle System

WHAT'S BEHIND OUR RAMPS?

★★★★ INCREDIBLY LIGHT ★★★★★

It's hard to believe that two 10 pound ramps can support 3,000 pounds with ease. But Race Ramps are designed with high density foam technology that provides a solid core. They're stronger than metal ramps and they won't break your back when you carry them.

★★★★ WON'T SLIDE ★★★★★

Race Ramps won't slip, slide or scoot across garage floors. Or Driveways. Or grass, dirt or asphalt. Why? Because their material and unique texture says so. It's why low-profile car owners love them. And why our competition hates them.

★★★★ RIDICULOUSLY STRONG ★★★★★

Race Ramps can support 3,000 pounds per set, while only weighing 10 to 15 pounds. Thanks to high density foam technology that provides a solid core, they won't wobble like car jacks or collapse like hollow plastic ramps. Just something to think about the next time you're working under your car.

★★★★ WON'T COLLAPSE ★★★★★

You can put your faith in wobbly car jacks. Or hollow plastic ramps. Or you can trust Race Ramps technology that's solid to the core. Our ramps won't slide, wobble or collapse. Which is comforting news to those who lie on their backs under their cars every weekend.
