

LIGHTBARS

21 SERIES SAE Class I LED Lightbar

ECCO 21 Series Lightbars are versatile and powerful warning devices suitable for a range of vehicle types and duties. There are numerous options and lengths available and the lightbars can either be mounted permanently to the vehicle or mounted using an optional roof mounting kit. The 21 Series is suitable for many vehicle applications and features LED modules with TIR optics, a durable aluminum chassis, polycarbonate lenses and a sleek, low profile design. Available in nine standard configurations, the 21 Series can be configured with either centrally controlled or independent flashing warning modules, offering a choice of either 3, 4, 6, 9 or 18 LEDs per module, including dual color options. Stop-Tail-Indicator, worklamp/takedown and alley light modules are also available as well as an integrated Safety Director to control the rear warning modules independently.

Features

- Low-profile chassis
- Three, four, six, nine, and 18 TIR LED modules
- Integrated LED Safety Director™
- 19 flash patterns (independent flashing)
- 31 flash patterns (centrally controlled)
- Aluminum chassis, polycarbonate base and lens
- Magnet mount available for 22" lightbars (EZ2122MG)
- Range of strap mounting accessory kits
- Five color options - Amber, Blue, Clear, Green and Red
- Nine length options - 22", 36", 44", 47", 52", 58", 69", 80" and 91"

- Temperature Range: -22°F to +122°F (-30°C to +50°C)

Symbols / Features Guide

Independent Flashing (IF) indicates the lightbars modules have individual electronic circuits that control their operation. Centrally Controlled (CC) modules are operated via a centrally mounted control board.

Warning Modules - Independent Flashing

Warning Modules - Centrally Controlled

Auxiliary Modules

-  LED Stop-Tail-Turn
-  LED Worklamps
-  LED Alley Lights
-  Integrated LED Safety Director
