TOW & RECOVERY PRODUCTS

Federal Signal is the **Driving Force** of industry solutions for municipal, utility, tow and recovery and DOT vehicles. Our Amber products offer customers solutions to improve work zone safety everyday. From beacons to lightbars, controllers and back-up cameras—we work with you to provide solutions to fit your needs and meet the demands of your ever changing work environments.

THE **DRIVING
FORCE**

*Federal Signal brings together revolutionary technologies to create a **SAFER, SIMPLER and SMARTER** warning system.*

Solaris® LED Reflector Technology

Federal Signal's Solaris® LED reflector design is engineered to significantly increase off-axis warning. The high-efficiency Solaris reflector maximizes the LED light source to eliminate dark spots and distribute 360-degrees of light coverage.

ROC (Reliable Onboard Circuitry™) Technology

Federal Signal introduced a breakthrough in lightbar construction with the revolutionary ROC (Reliable Onboard Circuitry™) technology. ROC is manufactured to eliminate approximately 85% of the connection failure points found in a typical lightbar assembly. Wires, connections and assemblies have been replaced by PCB assemblies — reducing labor repair time and increasing the road time for emergency vehicles.

FS Convergence Network

The FS Convergence Network provides “plug-n-play” installation from Federal Signal's SmartSiren® Platinum, amplifier and controller, to our family of serial communication lightbars and the Interior Lighting System (ILS).

SpectraLux™ Multicolor LED Technology

Exclusive to Federal Signal, SpectraLux™ multicolor LED technology provides the ability for a lighthouse to change color while in operation. SpectraLux is available in Vision SLR and Valor lightbars and the IMPAXX6 exterior light.

SLR (Solaris® LED Rotator) Design

Federal Signal's Solaris SLR design significantly maximizes the LED light source for full light coverage. The SLR rotator in the SLR Beacon provides a superior LED rotating solution fit for any work truck to improve visibility and work zone safety.

Valor®

- SpectraLux™ multicolor LED technology available
- Federal Signal patented ROC (Reliable Onboard Circuitry™), technology eliminates approximately 85% of the potential failure points in a typical lightbar
- Newly optimized Solaris® LED lights maximize warning signals at 360-degrees and 90-degrees off-axis
- Six-button controller for ease of installation and lightbar control
- Available in 44" and 51" lengths

2012 Series Alarms

- Available in 87 dB(A), 97 dB(A) and 102 dB(A) models with wires or stud terminals
- Meets SAE J994, CE, OSHA and MSHA requirements
- Built-in universal mounting bracket and self-grounding strap (-S models) eases installation
- Alarms operate at 12/24 VDC, drawing only 0.1 Amps

MODEL	DESCRIPTION
210238-S	87 dB(A), stud terminals, SAE J994 Class D
210239-S	97 dB(A), stud terminals, SAE J994 Class C
210240-S	102 dB(A), stud terminals, SAE J994 Type F

Evacuator®

- Meets SAE J994, OSHA and MSHA requirements
- Wide range of decibel levels and operating voltages is offered for enhanced application flexibility
- Universal mounting bracket included
- Maximum current draw of 0.15 Amps

MODEL	DESCRIPTION
210331	97 dB(A), 12-48 VDC, Type C, nickel plated threaded terminals
210333	107 dB(A), 12-48 VDC, Type B, nickel plated threaded terminals

Mobile Camera Systems

Mobile Camera Systems

- 5.6" or 7.0" TFT color LCD monitor
- Automatic triggering through individual camera trigger wires
- Easy to install with minimal connections
- Two-year limited warranty

MODEL	DESCRIPTION
CAMSET56-NTSC-2	5.6" Monitor with two-camera input, (1) standard rear-view camera, (1) 65.5-ft extension cable
CAMSET70-NTSC-4B	7.0" Monitor with four-camera input, (1) standard rear-view camera, (1) 65.5-ft extension cable, split-screen capability
