

11-602 Start•All® with Air Compressor

11-602 Start•All with Air Compressor

The 11-602 provides the same jump starting power as the 11-601 and adds an air compressor, making it a good choice for those who need to run small air tools or fill tires.

Output

12 volt, 300 amp, 8CFM @ 100 psi, 150 psi max

Dimensions

27"W x 23"D x 24"H, 350 lbs.

Engine

Electric start, air cooled Briggs & Stratton Vanguard OHV gasoline engine with 2 gallon fuel tank

Cables & Clamps

30 ft., 2 ga. welding cable, 500 amp clamps, amp meter

General Features

- Electric start, air cooled Briggs & Stratton Vanguard OHV gasoline engine with 2 gallon fuel tank
- Single stage air compressor. Air tank required, sold separately
- Volt and amp meter to monitor boosting output
- Voltage Control provides regulated voltage that is safe for vehicles and on-board electronics
- Reverse Current Shutdown Protection eliminates expensive repairs to the Start•All® if the unit runs out of gas
- Reverse Polarity Protection will not allow the Start•All® to be turned on if the cables are not hooked up correctly
- Polarity and low battery LED indicators confirm proper connections
- Anti-zap surge protection provides safer boosting
- Single DC boosting switch for easy operation
