

# 65-400/65-410 Air Compressor

## Product Description

Goodall's two stage air compressors provide a reliable air source in commercial, industrial, and automotive applications. More efficient than their single stage counterparts, these models compress air to a higher pressure while generating less heat, reducing wear and extending compressor life.

### Engine

- 2 Stage Gasoline Industrial OHC engine
- Choose either the 65-400 base mount or the 65-410 30 gallon tank mounted option
- Electric start
- Pneumatic idle control to conserve gas

### Compressor Pump

- Quality cast iron two stage compressor with venting system for reduced crankcase temperature and pressure
- Splash lubricated cast iron crankcase to extend the hours of performance
- Cast iron head for heat dissipation
- Stainless steel braided discharge hose
- Large canister intake filter

### Frame

- 3/16" base plate to reduce vibration
- 14 gauge powder coated two-piece belt guard with 1/4 turn release for quick access to belts

### Components

- Air tanks are powder coated and ASME coded
- Regulator and two gauges for tank and outlet pressure
- 16.5" fly wheel for extra cooling and longer life
- Belt tightening system pulls engine straight to ensure constant belt alignment
- Tabbed design offers flexible installation
