Item # XDMB, Individual Components and Accessories

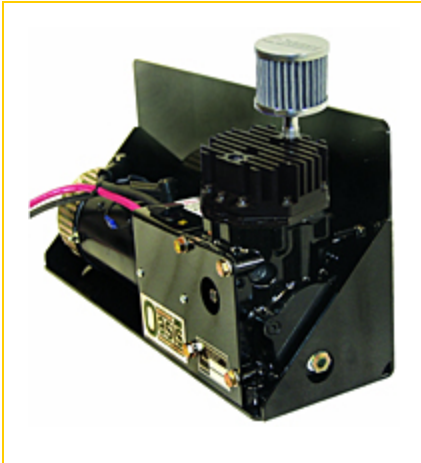

Our auxiliary air compressor battery steel-mounting brackets offer a new and sturdy solution, designed to fit all Oasis HP and XD models. These special mounting brackets enable you to mount the compressor battery to the vehicle chassis, and feature mounting holes and sight glass holes on both ends to allow for easy compressor sight glass viewing to check the oil level. Constructed from 3/16 of an inch thick plate steel, the XD brackets measure 22.5 inches long by 7 inches wide by 10.5 inches
