

Miller Exclusive 36" Tow Light

TowMate®

First of its kind tow light

This Miller Industries exclusive heavy duty tow light is like no other with its innovative multi-colored strobe system that allows you to switch between amber/white, red/blue and a powerful white work light mode. This model also includes all standard functions of a tow light including stop, tail and turn controls.

The tow light is run by a Lithium Ion power supply that will run for 60+ hours straight. The entire system includes a battery, 12V DC charging station and a transmitter (7-pin round is standard). Like all TowMate products this light comes with a lifetime warranty and was made in the USA. Order yours today!
