SAFEALL

SAFETY MINDED. FORWARD THINKING.

Ping ((◉))

Advanced Warning System | **Startup Instructions**

Thank You for Choosing SafeAll Ping!

To get started with your SafeAll Ping, **follow these simple steps:**

❶ **Activate Your Ping**

- Locate the QR code under the lip of the box.

- Scan the QR code using your smartphone to activate your device.

❷ **Installing the SafeAll Ping**

- Securely mount the SafeAll Ping inside the cab of your vehicle. Choose a spot that is easily accessible and does not obstruct your view or movement.

❸ Connecting the Wiring

- Locate the three wires at the end of the Ping's main cable.

  - **Black wire:** Connect to a ground point.

  - **Red wire:** Connect to the key ignition power source.

  - **White wire:** Connect to a switch inside the cab.

    - This switch will activate the Ping and begin alerting nearby motorists via Waze that you are present and on the side of the road.

❹ Using Your Ping

- Once installed, the SafeAll Ping operates seamlessly. Simply flip the designated switch when you need to alert others of your presence.

- After setup, you can forget about it—the system will handle everything automatically when activated.

Enjoy Safer Roads with SafeAll Ping!
