

WORKLIGHTS

EW2010 Pedestrian Arrow

ECCO's EW2010 LED Pedestrian Arrows are designed specifically for material handling applications to provide a visual warning for pedestrians in the vicinity of mobile equipment. These lights are intended to supplement a 360° warning light by projecting a blue or red arrow onto the ground in front or to the rear of the vehicle. This additional safety feature is especially useful where blind corners are present (i.e. warehouse racking) and is likely to be seen by pedestrians who are not looking up or paying close attention to their surroundings. Featuring 12-56 VDC operation, an aluminum housing, and polycarbonate lens, the EW2010 is extremely resistant to impact and vibration damage.

Models

PART NO.	LED COLOR	VDC	AMPS
EW2010R	■	12-56	0.6
EW2010B	■	12-56	0.6

Features and Benefits

- Three 3-watt LEDs
- Blue or red arrow projection
- Pedestrian warning for material handling applications
- Aluminum heatsink housing
- Polycarbonate lens
