Product Information

This New amazing Mini Auxiliary square LED light from Race Sport Lighting projects out a 1000 lumen MAX output out of a miniature 2.8" ultra small cube, with a shallow depth for all around universal mounting in small areas of bumpers, valences, brush guards, and more. Looking for smaller instead of larger lights, but without sacrificing LUX light output? This is the right product for you. This MINI aux light is super durable and was tested to the highest specs in our RSL test lab and passed 42-day aging, 24-hour salt water emersion, LUX output, and projection testing just to name a few.
