Item # XDT10-4000-24, Tank-Mounted Air Compressor

This system has been designed for commercial and industrial use. The new XDT-4000 features the XD4000 air compressor and is mounted on a 10 gallon ASME coded Tank. This package is designed for work trucks and tow trucks. For continued, extreme, and construction use, the XDT10 with fan cooled motor is recommended. These systems are completely factory assembled and tested, ready to bolt down and connect to the battery.

[Specifications](#) | [Typical Performance](#)

Specifications

Compressor Model	XD4000-24
Nominal Operating Voltage	24 Vdc
Dimensions (L x W x H)	40" x 10" x 24"
Net Weight (Lbs)	110
Motor Type	Series Wound
Motor Thermal Protector	Not Required

Max Pressure	200
Max Restart Pressure	150
Horsepower	2.2
Current at Max Load (Amps)	90
Power at Max Load (Watts)	2160
Duty Cycle @ 100 psi @ 70 deg	100%
Features	10 Gal Tank Fan cooled motor Fan cooled compressor

Typical Performance

PSI	CFM	Current
0	15	25
50	9	50
100	8	75
